SUMMARY

B.Tech Computer Science graduate skilled in **React.js, Next.js, Django, Flask,** and **MySQL**, with **strong collaborative** and **problem-solving abilities**. Proven ability to build responsive **web applications, RESTful APIs, and AI/ML integrations**. Strong communicator with a solid foundation in **Computer Networks, Operating Systems,** and **DBMS**, with the ability to design scalable web applications and deliver user-centric solutions through effective teamwork.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C.

Frameworks: React.js, Next.js, Django, Flask, Tailwind CSS.

Databases: MySQL, PostgreSQL, Prisma, ConvexDB.

Web Dev Tools: VS Code, Git, GitHub, Figma, Inngest, Clerk, Framer Motion.

PROJECTS

MediMeet - Healthcare Appointment Platform - Demo ⧉
- Developed a **responsive healthcare platform** enabling users to connect with doctors anytime, anywhere.
- Integrated features for **booking appointments, enabling video consultations,** and **managing healthcare services** through a **secure UI**.
- Solved video integration issues, **reducing buffering time by 40%** and improving overall **video performance**.
- **Tech Stack:** React.js, Next.js, Vonage, PostgreSQL, Prisma, React Hook Form, Tailwind CSS.

Pixxel AI Image Editor - Demo ⧉
- Built a **full-stack image editing application** with a subscription model, driving user engagement and paid conversions.
- Integrated **AI APIs** and implemented **real-time autosave with database optimization**, enhancing user experience.
- Improved application performance by debugging and removing key bottlenecks, resulting in **40% faster load** and response times.
- **Tech Stack:** React.js, Next.js, Tailwind CSS, ConvexDB, ImageKit, Fabric, Clerk.

EXPERIENCE

Freelance Full Stack Developer (Jul 2025 - Oct 2025)   **Farmers Choice** - Demo ⧉
- Built and delivered a **production-ready web application** for an agriculture-based company.
- Improved **SEO** and performance using optimized **assets, reusable UI components,** and **clean semantic layout**.
- **Collaborated** with the client on requirement gathering, **site structure planning**, and progress updates.
- **Tech Stack:** Next.js, React.js, Tailwind CSS, EmailJS, Hostinger.

CERTIFICATIONS

- Siemens Healthineers Hackathon (2023) - Global Participant collaborated with a **global team**.
- React: The Ultimate Guide – Udemy.
